Person	Problem	App Found [Name]/none
Dylan B.	Phone used as temporary I/O Device (for PC's)	[No App]
Krisann B.	Slow, Bloated performance (Some spyware)	Adblock Browser
Jaise P.	Battery dying too quick after long time out	Battery Saver-Ram Cleaner
Cameron S.	Lazy cooking nights, can't think of recipe	MyFridgeFood
Zach G.	Passive income from "spending too much on delivery apps"	CryptoTab

Likes	Dislikes
Would be helpful as IT; Installing Windows with no I/O device	Difficult to implement
Keeps pop ups / Ads away (no risky links)	None
Charges faster	Ads slow down performance, doesn't save much battery
Useful for basic ingredients	Not very advanced, not many recipes
Passive running on phone	Power consumption

Improvements	Age [Opt]	Gender [Opt]	Education [Opt]
N/A	22	Male	Associates (CompSci)
Possible easy settings for low-level users	51	Female	High School
Cut down on ads to save battery	16	Male	High School
Add more recipes, connect to recipe databases / Sites	22	Male	Bachelors (Biology)
Less power usage, simpler UI	16	Male	High School

Comments [Opt]
App would connect to PC as a Keyboard or Touchpad mouse in BIOS
Seems to help a low-level user
Free version doesn't really help
Would help newer cooks
Probably not economically worth
